

PRESS RELEASE

METLEN Energy & Metals: Protergia absorbs energy market increases, maintaining its prices stable in August

Athens, Greece – 24 July 2024 – Protergia, an integral part of METLEN Energy & Metals, in response to current market conditions and consumers' concerns about the impact on electricity bills, is maintaining its final prices for August stable, at the same levels as July, for household and small business customers, absorbing the increases in wholesale market prices.

If the Ministry of Environment and Energy decides to subsidize consumers up to 500 kWh, this amount will be deducted as such from these prices.

Protergia's uncompromising strategic priority is to provide assurance and security to its customers, both new and existing, with competitive products and services, and of course, the reliability of METLEN Energy & Metals, bolstering the entire energy market.

The following comparative table presents Protergia's prices for August for household consumers, in comparison to July:

	July 2024	August 2024	
Protergia's Prices of Variable Residential Tariffs (€/MWh) <i>This does not include fixed assets which remain unchanged</i>	Protergia's Final Price	Estimated Protergia's Price based on Wholesale Market ¹ before Discount	Final Protergia's Price after Discount
Protergia Home Value Special (Special Tariff) ²	159.9	260.8	159.9
Protergia Home Value Simple	136.7	187.8	136.7
Protergia Home Value Easy	90.9	202.8	90.9

1. Based on wholesale market price until 23/7/24

2. Price with consistency discount
